MAIN CELL HOUSE AT REFORM. ATORY DESTROYED BY AN EARLY MORNING BLAZE

VO LIVES WERE LOST IN FIRE

Many Convicts Have Narrow Escapes -Others Work With Officers-Buildings Said to Have Been Fired by Prisoners

Granite.- Three prisoners whose identity is known but not made pub-Hc, were responsible for the fire which destroyed the main building of the Oklahoma state reformatory here, causing 206 prisoners to fee in nightclothes 'rom the burning structure and resulted in a loss of \$25,000 with some insurance. No prisoners escaped during the fire and many of them NEW MEXICO aided in the batic against the flames and in rescuing other prisoners from the burning structure.

Rescues from Hospital.

In the hospital department were two inmates, a boy with a broken leg and an old man recently transferred from evil ta unnecessary. the penitentiary and suffering from a partial stroke of paralysis. R. F. Graham, a forty-year term prisoner in charge, railled his nurses and with their aid carried the inmates from the with flames bursting through.

Cleveland Howard, a prisoner, was one of the first to leave the building. Running to the guard on tower number one, in charge of the guns, he said. "I am all right give the guns to me." The guard did so, sided in the work of fighting the fire, and Howard delivered the guns to other prison prize in the matrimonial lottery is officials.

Other paisoners who aided the officers included Orville Stroup, Eud Views | Campbell, Jim Anderson, Leonard Nance, Allen McDowell, Harris Perkins, Volley Ballard, J. H. McGlum-Kodak Finishing | phey, Clarence Osborn, Grady Hightower and two negro boys, Arch Me-Conneil and Paul Martin, Most of the prisoners were very orderly, and no open attempts at escape were made.

No Prisoners Missing

After the fire the prisoners were as missing. sembled in the stockade and kept there until a count could be made. At 11 o'clock it was aunounced that none were missing. They then were taken bakery temporary quarters being arranged. A special order of blankets and bedding arrived from Oklahoma City, and clothing for the prisoners, awered?" most of whom lost what they had in the fire, was purchased during the

impossible to Secure the Necessary Two Thirds Majority.

Washington .- Woman suffrage adocates lost their fight in the United States senate for a resolution proposog an amendment to the federal constitution giving women the ballot. The onte was thirty-five for the measure to birty-four against it, a two-turns asirmative vote being required for assage, and when it was over suffrage leaders pointed to the majority of one as conclusive proof that their cause had scored a triumph in defeat and was immeasureably stronger than its appearate ever had been willing to

Though otherwise the vote was virmally non-parrisan, the southern senators, all democrats, lined up almost solidly against the amendment. They contended it would complicate the neirro question in the south. Of the noutherners only Senator Ransdell, Louisiana; Sheppard, Texas; and Lea, Tennessee, voted for the resolution. Senator Owen voted yes and Gore no.

NOT A MIRACLE Just Plain Cause and Effect.

There are some quite remarkable things happening every day, which seem almost miraculous.

Some persons would not believe that a man could suffer from coffee drinking so severely as to cause spells of unconsciousness. And to find relief in changing from coffee to Postum is well worth recording.

"I used to be a great coffee drinker. so much so that it was killing me by inches. My heart became so weak I would fall and lie unconscious for an hour at a time.

'My friends, and even the doctor, told me it was drinking coffee that caused the trouble. I would not believe it, and still drank coffee until I could not leave my room.

Then my doctor, who drinks Postum himself, persuaded me to stop cof- | the grain is so imperfectly developed fee and try Postum. After much hesitation I concluded to try it. That was eight months ago. Since then I have had but few of those spells, none for more than four months.

"I feel better, sleep better and am better every way. I now drink nothing but Postum and touch no coffee, and as I am seventy years of age all my friends think the improvement quite remarkable.

WORKING IN A POULTRY YARD

of Fresh Air Cause Much Loss -Sell Surplus Stock.

(By PROF A. S. ALEXANDER.) Be careful in handling fowls, paricularly ducks and geese. Ducks have very weak joints and it always injures them more or less to catch them by the legs.

Overfeeding, overcrowding and lack of ventilation cause much loss among amateur poultry keepers. A large per cent, of the chicks die and those that survive are runty and undersized. Forgetting to provide grit causes in-

digestion and after a while it turns to cholers. Fall is the best time of year to pur-

chase geese for next year's breeding. Geese do not mate as readily as other fowls and it is therefore advisable to procure them several months before the laying season arrives. If possible, buy stock that is at least one year old and mated.

As a rule one should engage the stock sometime in the summer. Have the birds shipped after the weather gets cold. This gives the birds time to get accustomed to their surroundings.

Send all surplus poultry to market as soon as the fowls are in proper

condition. Unless one understands the process of forcing, it is seidom wise to wait

for prices to go up. Cull out the backward looking pullets, keeping only the best and most prominent for egg production.

Even in cold weather be vigilant and use the whitewash pail and brush at least once a week. The mites are busy

Some people make the mistake of selling all the good birds and retaining the poor ones. Stop up cracks in walls and doors

and do not allow drafts to blow in cothe roosts. Top ventilation is the best, for foul air rises and if there is an outlet it will escape.

The ventilator should be opposite the end where the roosts are. When the snow comes there should be paths shoveled down to the ground for the fowls to walk without getting

Weed out the culls even if they must be sold at what may seem to be a sacrifice, and by thus getting rid of all but the best avoid having culls the next year.

Let the turkeys have some range even when fattening. Feed liberally all the grain they will ent three times a day, and they will lose less flesh in the little exercise than they would while chafing under confinement.

Never leave a broken eag about the poultry house. Not only will it in duce the egg-eating habit, but it is a breeder of lice.

Getting Fertile Eggs. An old hen is not so apt to lay good fertile eggs as one that is a yearling.
